Frontend Developer

Summary

Hi, I'm Frontend developer with nine years of proven experience. I create interactive web interfaces, SPA and work with complex apps, based on JS/TS and React/Redux. More than 20 completed working projects. Passionate about learning and development with a desire to apply new skills in workflow. Eager to tackle more complex problems and find ways to maximize user efficiency. Successfully worked on web solutions for AI technologies. Enjoy and have a great experience with team work with Scrum, Agile methodologies. Attentive to details, result oriented and self organized.
